

CLEVELAND CHAPTER OF THE INDOOR AIR QUALITY ASSOCIATION

Brings You Our Summer Seminar Series: The Science Behind the Green

Wed., August 11, 2010 at Noon

Forest City Yacht Club, Cleveland, OH

Insulation, R-Values, Ventilation and Creating Conditioned Spaces

Join Torsten Hansen, from Pure Seal, Inc. as he takes us into the hidden and often confusing world of insulation! Foam, cellulose, fiberglass, even concrete. The truth behind the importance of insulation is often lost in sales pitches, r-value claims, colors, energy savings, and of course, cost. Let Torsten provide an expert's overview of how insulation works, including the latest and greatest industry knowledge. Find the best way to choose what's required for your situation and why.

Coming This Fall! Watch for Final Schedule Soon.

Fall – “**Chemical Injury, Multiple Chemical Sensitivity (MCS), and Healthy Solutions**”

- Toni Temple, founder and Director of the Ohio Network for the Chemically Injured, ONFCI's goal is preventing disability through awareness, advocacy, support & education. The ONFCI supports those injured by environmental causes from our everyday environment. This includes those diagnosed with Gulf War Syndrome, Fibromyalgia, Connective Tissue Disease, Chronic Fatigue Syndrome and Sick Building Syndrome. MCS is recognized as a qualifying disability by many U.S. Government agencies, including the U.S. Access Board, H.U.D., the Social Security Administration, and the National Institute of Environmental Health Sciences (NIEHS). Those with MCS are protected under the Americans with Disabilities Act. (go to <http://www.ohionetwork.org/site.html>)

Fall – “**What happens when the (low hanging) Fruit runs out?**”

- Ray Davis and Scott Armour, RL Enterprizes Inc., Sustainability Management Systems consultants

Fall - “**Let Building Science Help You Avoid Problems**” *Plus FUN WITH FACEBOOK AND UTUBE!*
