IAQA SEMINAR: IESO's PHEAF Standard

Hands-on Training in the Field Testing of HEPA Filtered Devices

How effective are your HEPA-filtered Asbestos, Lead and Microbial abatement devices?

January 16, 2010 ■ Las Vegas Embassy Suites Hotel ■ Las Vegas, Nevada

The Indoor Environmental Standards Organization (IESO) is preparing to release a new standard in 2010 known as the Portable High Efficiency Air Filtration Device Field Testing and Validation ("PHEAF" Standard.) The standard can be used on-site to validate the integrity of air-cleaning equipment that contains HEPA filters. This includes negative air machines, air scrubbers, portable vacuums, etc. These devices are commonly used in lead and asbestos abatement, mold remediation, hazardous dust clean-up and on projects like disaster restoration. This one-day IAQA seminar was created to teach you what you need to know about this new standard and how it will affect your work practices and job requirements. The presentations and discussions will be informative and allow for lively questions and answers.

Course Outline

- Brief introduction to IESO
- The need for a "PHEAF" Standard
- Overview of the IESO Portable High Efficiency Air Filtration (PHEAF) Field Testing and Validation Standard
- Particle Counter basics and set up*
- 'Live' testing of actual PHEAF devices
- Hands-on training in testing of PHEAF devices

Schedule of Events – January 16, 2010

8:00 a.m.	Registration / Continental Breakfast
9:00 a.m.	Seminar
12:30 p.m.	Lunch (included)
1:30 p.m.	Hands-On Training and Testing
4:00 p.m.	Q&A / Seminar Wrap-up
5:00 p.m.	Cocktails: Manager's Reception

***We welcome you to bring your own particle counter**

About the Speakers

IAQA's speakers for this seminar are Robert C. Brandys, PhD, MPH, PE, CIH, CSP, CMR and Gail M. Brandys, MS, CSP, CIEC. Dr. Brandys is President of Occupational and Environmental Health Consulting Services, Inc., Hinsdale, Illinois. He has over 30 years of experience in the safety and environmental field and has authored numerous scientific papers and books. Gail Brandys is the Director of Training for OEHCS, Inc. She is a licensed asbestos inspector and management planner and an EPA certified lead trainer. She has been teaching asbestos and other environmental training courses for over 25 years.
